A licensed patent attorney with the Moore & Van Allen intellectual property group, Jim Edwards concentrates his practice patent preparation and prosecution in the electronic and computer technology arts.

The sophisticated services he provides his clients include:

- Obtaining patent protection in the U.S. and foreign patent offices.
- Infringement and invalidity investigations, conducting due diligence investigations related to corporate transactions.
- Re-examination proceedings in the U.S. patent office

He also helps clients develop strategies to effectively manage their intellectual property, including patent portfolio assessments and working with clients to identify and capture inventive ideas.

Mr. Edwards works with clients in diverse areas of technology, including:

- Electronics
- Computer software/firmware
- Distributed networks
- Telecommunications
- Communications protocols
- Wireless devices
- Semiconductor manufacture
