estherqueen@mvalaw.com

Esther Queen primarily focuses her intellectual property practice on patent law. She prepares patent applications for prosecution before the United States Patent and Trademark Office, conducts patent validity and infringement studies, and assists clients in patent matters. She has patent experience in the areas of chemistry, pharmaceuticals, biochemistry, business methods, and mechanical devices.

Before attending law school, Ms. Queen worked on developing polymer based technologies for auto, construction, coatings, sealants, and adhesive industries as a chemist in Research Triangle Park.
