kevinransom@mvalaw.com

A trained electrical engineer with corporate systems-engineering experience and a frequent lecturer on intellectual property topics. Kevin Ransom brings both technical expertise and legal know-how to his widely varying intellectual property clients, for both domestic and foreign IP portfolios.

The sophisticated services he provides his clients include:

- Obtaining patent protection in the U.S. and foreign patent offices.
- Infringement and invalidity investigations, conducting due diligence investigations related to corporate transactions.
- Preparing and negotiating license and joint-development agreements.
- Negotiating intellectual-property-related assets purchases.
- Licensing and purchasing intellectual property.

He also helps clients develop strategies to effectively manage their intellectual property, including risk management of third-party intellectual property rights, consulting on a wide range of transactions with intellectual property components.

Mr. Ransom works with clients in diverse areas of technology, including:

- Electronics
- Computer software/firmware
- Distributed networks
