

GOVERNMENT RELATIONS

We provide our clients with strategic support to achieve their business objectives at the federal, state and local government levels.

Whether you need to engage proactively in relevant issues or respond to an emerging legislative threat, our registered federal and state lobbyists have the experience to help you effectively navigate the process.

We work with our clients to understand their organization, stakeholders, and sensitivities, and we develop and implement government affairs strategies to advance their legislative priorities. Our capabilities include direct advocacy, connectivity, legislative monitoring, and real time reporting. We also collaborate with our communications group to develop consistent messaging materials and tactics, such as media and grassroots engagement.
