Taylor Quoted in SHRM

01.2012

Charlotte senior counsel Todd Taylor was quoted in last month's *Society for Human Resource Management (SHRM) Online* article "Bill Takes Aim at Corporate Involvement in Internet Censorship." The article addresses the bill H.R. 3605, or the Global Online Freedom Act, which would require the State Department to annually report on the freedom of electronic information in each foreign country and designate Internet-restricting countries responsible for a pattern of restrictions. The article can be read in its entirety [here](#).
