

SPORTS LAW

We take a holistic approach to our representation of select athletes during and after careers in professional sports, and advise corporate and professional sports clients in a variety of areas.

MVA Sports provides comprehensive legal and advisory sports law services to individual and corporate clients. Our group is comprised of professionals with diverse practices and extensive experience working with sports-related matters, including a National Football League Players Association Certified Contract Advisor, and corporate attorneys representing professional sports teams and investors.

Our group understands the needs, responsibilities, and challenges of professional athletes. We guide and educate clients in multiple sports as they train and prepare for professional opportunities; assist with contract negotiations; provide sound counsel about marketing endorsements and media relations; guide and protect with respect to trademarks and other intellectual property; guide wealth and estate planning; and align resources to provide opportunities for continued success beyond sports careers.
