Smith Published by Law360

06.2011

Public Affairs Counsel Rob Smith was featured as one of Law360's "expert" analysts on Law360.com and in their June 14 Energy & Environmental newsletter. Smith's column, entitled "The Coming Wars: Energy, Environment and Business," addresses the pending dispute between Congress and the Environmental Protection Agency over energy and environmental policy. According to Smith, the controversy "will have ramifications that extend far into the business and industrial communities."
